## Sewerage.

The Chairman of the Township Committee, Mr. W. F. Upson, said in his bi-weekly address last Monday that the question of constructing sewers in Bloomfield was the important problem of this year. Without doubt this is so. We have not expended or will expend about \$55,000 upon the joint outlet sewers, but before any practical benefit can be derived from that outlay, we must expend as individuals for lateral sewers and as a township for mains as much more.

This expenditure should be distributed over a period of five or ten years, and in that case would not be burdensome. The Committee have authority to proceed at once to construct the necessary main sewers of the township, and it is the opinion of the Committee that the main should be put down this season in Broad Street as far north as Belleville Avenue. This will be an expensive piece of work, on account of the depth necessary, an average of 26 feet below the street grade being required to drain this section.

The lateral sewer pipes for side will be small and the laying inexpensive, being much nearer the surface. We understand that the direct assessment upon property benefited will not exceed fifty cents per lineal foot. It is the opinion of citizens most interested in the growth, prosperity and health of the town that we cannot too soon get our sewers under way, and their construction finished. Our side streets need to be macadamized, but it is clearly a waste of money to expend it for paving before putting down the sewers. The last Township Committee anticipated this and very properly recommended that a small expenditure for road construction this present year.

**Opening of Mechanic Street.**  
This street, the ground for which was given many years ago, but which has never been opened and graded, has become an urgent necessity. The attempt to obstruct a portion of the roadway by the erection of a platform and weighing apparatus within the line of the street has drawn attention to it again, and a petition is now in circulation asking the Township Committee to open the street.

In the meeting of the Township Committee last Monday Mr. Gilbert vigorously opposed the proposed encroachment upon the roadway, and the result was that the sanction of the township was not given, and the excavation, already made for the apparatus and platform, has since been filled up. We understand now that the scales will be erected on the railroad property, south of Glenwood Avenue. Mr. Gilbert is entitled to the appreciation of the public for taking the stand that he did in this matter. He said that the street was no place in which to erect and maintain a private convenience of this kind, and he was right.

## A Lecture on Napoleon.

At the Glen Ridge Congregational Church this Saturday evening, May 12th, a most treat will take place in a lecture by Chas. H. Adams, of Philadelphia, on "Napoleon Bonaparte," illustrated by a superb collection of pictures.

The transcending military genius of Napoleon, his suppressing the riots in Paris, his shining successes on many battlefields, his calamitous retreat from Moscow, his final overthrow at Waterloo, the divorce of Josephine, the marriage to Marie Louise, and other striking events of his life are treated in a masterly manner by the lecturer, who, by his graceful style and effective delivery, added greatly to his chosen and unusually fine illustrations, deserves the hearty applause of his hearers.

Do not forget the date; this Saturday evening in the Glen Ridge Church. Tickets 50 cents.

## TOWNSHIP COMMITTEE

Out Goes The Old. In Comes The New.

"The king is dead; long live the king." The Township Committee of 1893-4 met Monday afternoon, heard the minutes of the last meeting read, approved them and then adjourned sine die. The Committee for 1894-5 then took their seats and organized by choosing Wm. Ford Upson, Chairman. Mr. Upson said he would discharge the duties of Chairman with impartiality. He complimented the old Committee on work done the past year, and spoke particularly of the construction of sewers, as requiring most careful consideration. He hoped the Committee would work wisely and harmoniously for the good of the whole township. He then announced the standing Committees for the year as follows:

Roads, Messrs. Fisher and Lawrence.  
Sewers, Gilbert and Haskell.  
Water, Haskell and Gilbert.  
Lighting, Powers and Fisher.  
Sidewalks, Lawrence and Fisher.  
Police, Powers and Haskell.  
Poor, Foster and Powers.  
Public Ground, Lawrence and Gilbert.

Legal, Haskell and Powers.  
Maps and Surveys, Foster and Haskell.  
Fire Department, Gilbert and Foster.  
Auditing, Fisher and Foster.  
Montgomery Street Bridge, Gilbert and Foster.

Mr. Haskell was elected Vice-Chairman, and Mr. Lawrence Treasurer of the Committee.

The following appointments were made:

Chief Engineer-Fire Department, Wm. C. Oakes.  
Superintendent Fire Alarm System, E. H. Perry.  
Township Physician, Dr. E. M. Ward.  
Township Surveyor, A. H. Olmsted.  
Township Counsel, Wm. S. Dodd.  
Superintendent of Public Work, William U. Oakes.  
Janitor, Thos. Hayes.  
Police Justice, Wm. R. Hall.  
Policemen, L. M. Collins, Thos. McKen, James Foster, James M. Avery, Richard Baylis.  
Chancemen, Charles Hummel, John Weden, L. H. Shorter.  
Thomas Smith was appointed a special policeman without compensation.

An ordinance was introduced and read, fixing the salaries of officers for the current year as follows:

Township Clerk, \$700; Collector, \$500; Overseer of the Poor, \$800; Superintendent Public Work, \$800; Township Counsel, \$500; Township Treasurer, \$150; Assessors, \$400 each; Township Physician, \$250; Superintendent Fire Alarm, \$200; Chief Engineer Fire Department, \$200; Janitor, \$100; Police, \$60 per month.  
Engineer S. B. Cadby was retained as Engineer to superintend the construction of the McIntair sewer in Bloomfield until the same is completed.

The bonds and oaths of officers were referred to the Legal Committee for examination, and report at the next meeting.

It was resolved to hold meetings of the Committee each week on Monday at 3:45 P. M., until otherwise determined.

Sidewalk District meetings were appointed to be held on Monday evening next.

An application of Alfred Taylor for appointment as Sewer Inspector was received, read, and referred to the Sewer Committee.

A petition for a hard road on Windsor Place was received, and referred.

A petition for the introduction of water on Vine and Hickory Streets was referred.

W. A. Freeman, Jr., asked permission to erect a platform scale on Mechanic Street opposite the D. L. & W. station. Mr. Powers moved that the request be granted, provided he agreed to remove it when requested.

Mr. Gilbert moved to amend the motion, that the matter be referred to the Town Counsel, and the amendment was carried.

Petitions for the laying of a water main in Lincoln Street and on Hamilton Road, and for the introduction of gas on Hamilton Road, were referred to the proper committees.

A petition for the erection of three lamps on Baldwin Street near Broad was referred.

A petition to have the lower portion of Glen Ridge Avenue macadamized was referred.

Application was made to have Ward Street and Farrand Street graded; also application to have Clark Street between Bloomfield Avenue and the railroad crossing macadamized.

A petition was received, having been numerously signed, asking for the laying of a crosswalk on Belleville Avenue at the railroad station. A petition was received to have the street extending from Osborn Street to Bay Avenue worked to a grade, also that three lamps be erected thereon, also that the name "Chest-

nut Street" be adopted in place of Bassinger Street by which it has come to be designated.

Mr. Gilbert suggested that as this street was destined in time to be cut through the railroad embankment to connect with State Street south of the railroad, it might be called "North State Street." The changing of the name was referred to the Committee on Maps and Surveys.

Captain S. G. Hayter made a request that \$100 be appropriated by the Committee to meet the expense of properly observing Memorial Day. The appropriation on motion of Mr. Gilbert was voted.

It was ordered that advertisements for bids for road work and sidewalk construction be prepared and inserted in the local papers.

The Board of Health was organized by the election of Wm. Ford Upson, President; Wm. L. Johnson, Secretary.

The choice of Health Inspector divided the Board on two candidates for the office, William B. Corby and Thomas Flannery. The latter was supported by Messrs. Powers and Foster, but Mr. Corby was elected to succeed himself by the votes of Messrs. Lawrence, Gilbert Fisher and Haskell.

## Third Ward Politics.

When the lines were made known which were to mark the boundaries of the Wards it was announced by some of those who were not been accepted in the make-up, that the Third Ward was Democratic, and we will hear it so asserted.

After three years' experience what are the facts? We find that the Third Ward has given a good majority to all the Republican candidates who have been nominated excepting that of Town Committee-man.

At the first election after the division into Wards Mr. Edwin A. Ryner, Democrat, defeated the Republican candidate, Mr. C. W. Powers, by a vote of 275 to 165. This was no doubt due to the efforts made by the Glen Bridge end of the Ward, irrespective of party lines. At the expiration of his term Mr. Ryner was again elected by the same margins; to quote from the circular you published a few weeks ago, which was issued in favor of his candidacy, "believing thereby the best interests of both the District and the Township will be served."

At our last election Mr. Ryner was again in nomination, and was defeated. Now for the first time the representatives in the Township Committee from the Third Ward are of one political faith. This is as it should be if party lines are to be drawn in town elections. That the majority of votes in the Third Ward are Republican needs no proof. The returns they give are unanswerable. This being so, why do her representatives give their aid in favor of their political opponents? At the organization of the Township Committee for 1894 and '95 it is not to be expected that the appointment of officers, the junior representative of the Third Ward, nominated a Democrat (no disrespect intended to the gentleman nominated) and that after his name had been rejected in caucus, that upon a vote by ayes and nays both of the members from the Third Ward had themselves recorded as in favor of his election.

Was there anything in this action in the nature of an equivalent for services rendered?

Rumor has it that the party defeated claims to have voted the Republican ticket. In the First and Second Ward (if a resident) he could not vote anything else, but in the Third he had an option. This rumor may account for the stand taken by the senior member. He is credited with being of the strictest in his adherence to party, and of voting only the full, regular ticket. Of the junior member less is known. Perhaps in his verbiage and the weight of his newly-assumed duties he may have made an unintentional "break." If so it is to be regretted. He should have been "coached" as to what was "proper form." If he stood alone in his advocacy it might thus be explained, but when his colleague, a Pharisee of the Pharisees, joined him in the endeavor to displace a faithful officer of their own political faith, and to seat a Democrat, we ask: What is there in it? Or, What use to elect a party man who gives his vote and influence to his opponents?

## NOT A DEMOCRAT.

**A New Play at the American Theatre.**  
"SISTER MARY" AT THE AMERICAN THEATRE, NEW YORK, MONDAY, MAY 14.

Next Monday evening, May 14, at the American theatre, New York, Manager T. H. French will produce for the first time in this country, Wilson Barrett and Clement Scott's beautiful comedy drama, "Sister Mary."

"Sister Mary" is the vehicle which will introduce to the American public, as stars, M. Leonard Boyne and Miss Julia Arthur. The former has for many years been recognized as one of the most competent leading men in England. In London he played the part of Walter Leigh, at one of the principal theatres of that city, during the long run of "Sister Mary." He also has the record of having appeared a star in the title role of Clarendon more than four hundred consecutive times.

Miss Julia Arthur is generally conceded to be one of the most promising actresses in America. Her excellent work as the leading lady of A. M. Palmer's stock company is too familiar to our theatre-goers to require any comment.

"Sister Mary" is, in every sense, of the year, a human drama. It deals with life as it really is, and is as nearly devoid of artificiality as any play can be. The love interest is exceptionally strong, and the comedy element has been by no means neglected.

Manager French will, it is needless to say, mount the play elaborately, and that he has secured a magnificent company of players to support Mr. Boyne and Miss Arthur may be learned by a glance at the following remarkably strong cast of characters:

Walter Leigh, (His original character) Leck and Boyne; Sandy Dwyer, (His original character) Cooper; Clifford; Colman; Malcolm; Arthur; Lawrence; Harry Reed, (aged 7) Juliette; Grayson; Jack Madison, (D. J. Drury); Jack Davis; Ralph Delmore; Bill Dredge; Matt Woodward; Corporal Mulloy; M. J. Gallagher; Rose Reed; Elsie De Wolfe; Kate Malcolm; Maxine Elliott; Lucy Carroll; Lee Lamar; Arabella Perkins; Teckla Morton; Agatha Malcolm; Fanny Grant; Charley Binks; Lina Taber; Susan, Marie Henderson; and Mary Lisle, Julia Arthur.
